Description

The ZEPHYR MK2 GTX HI is a mission boot that achieves the ideal balance between agility, lightness and stability. The HI-CUT upper provides the support needed during parachute jumping and fast roping. The upper is made from a combination of water-repellent, tear-resistant suede and abrasion-resistant, breathable CORDURA® material. An innovative locking hook allows the lacing to be individually adjusted in the forefoot and ankle area. The waterproof, highly breathable GORE-TEX PROFESSIONAL laminate is ideal for use in moderate or relatively wet environments. The dual-layer PU midsole with a MONOWRAP® frame surrounds and supports the foot like an exoskeleton. The ZEPHYR MK2 GTX HI is certified as occupational footwear in accordance with EN ISO 20347:2012. It is anti-static and has a cold and heat-insulating sole complex. The outsole is not only anti-slip - it is also resistant to oil, petrol and contact heat.

Certified working boot according to EN ISO 20347:2012

Code: O2 HI CI WR HRO FO SRC

Weight: 1250 g/Pair (UK 8)

Details:

- Very lightweight for an extremely durable and rugged duty boot.
- Waterproof and breathable GORE-TEX extended comfort footwear membrane.
- Individually adjustable two-zone lacing for forefoot and shaft.
- Injection-molded, perfectly bonded upper with PU foam and sole for maximum cushioning.
