Description

Luminox Bear Grylls Survival 3749 (XB.3749) – 45mm Chronograph Watch with Compass Strap

Every second counts. The **Luminox Bear Grylls Survival 3749 (XB.3749)** is a mission-ready chronograph designed for demanding conditions on land and in water. Built around the Bear Grylls “Never Give Up” mindset, this model combines robust construction with practical survival-focused details.

The watch features a **45 mm CARBONOX™ case**, a lightweight and extremely durable carbon-based material. For confident use in wet environments, it offers **300 m / 30 ATM water resistance**, a **screw-in crown with double gasket and crown protection**, and a **screw-in 316L stainless steel case back**. This model includes a **chronograph with date and tachymeter** and comes supplied with an **orange strap including a compass**. Like other Luminox watches, it uses **Luminox Light Technology (LLT)** for **constant glow visibility up to 25 years**, independent of external charging.

Key Features

- **Series:** Bear Grylls Survival Series
- **Model / Line:** XB.3749 | 3740 Series
- **Functions:** Chronograph, date, tachymeter
- **Visibility:** LLT constant glow up to 25 years
- **Water resistance:** 300 meters / 1000 feet / 30 ATM

Safety & Use Notes

- Rinse the watch with fresh water after exposure to salt water.
- Ensure the crown is fully screwed down before water exposure.
- Avoid pressing chronograph pushers under water unless explicitly supported by the model's design.

FAQ

Does the watch glow in the dark without charging? It has continuous illumination without exposure to light or button activation.

Is it suitable for diving? It has 100m water resistance and a unidirectional bezel, making it suitable for demanding water use. Always ensure the crown is fully screwed down before water exposure.

What is the compass strap used for? It is used for basic orientation when
