Description

A tourniquet is a must-have piece for any first aid kit. Its effectiveness as a life-saving instrument for soldiers on the battlefield has played a significant role in improvement of modern warfare combat injury medical care. It also has a Velcro Windlass Strap for further securing of the windlass during patient transport. Modern military soldiers rely on the tourniquet to stop arm or leg blood flow due to injury on the battlefield. Specification:

- Weight 60 g
- Black color
- Tensioning rod made of aluminum

Certification:

- Tested maximum breaking force: 3550N
- Complies with RoHS Directive (EU) 2015/863 Annex II to Directive 2011/62/EU
- Complies with Medical Device Regulation (EU) 2017/745, and EN ISO 14971/2012, EN ISO 15223-1/2016, EN 1041:2088+A1:2013

Made in PRC.
