Description

Inspection mirrors kit for security services, customs, police, and rescue services.

The mirror kit is designed for visual inspection of inaccessible places, including in poor lighting conditions;

- in engineering systems for various objects status examination;
- in customs clearance when solving problems and controlling passenger and freight transport;
- in the aftermath of emergency situations (examination of debris, inaccessible areas);
- for inspection of public utilities (wells, lifting equipment, sewers, etc.);
- during the inspection and maintenance of vehicles;
- for special operations of emergency and security services.

Inspection kit consists of four section ergonomically designed robust telescopic pole. Detachable LED flashlight is mounted on the pole by a special bracket and can be easily removed if necessary.
