Description

Lynxgear Tactical Helmet Battery Pouch MK2

Keep your remote battery pack secure and bring your night-vision rig back into balance. The MK2 pouch Velcro-mounts to the rear of any loop-covered high-cut or bump helmet, doubling as a counterweight pocket when used with lead shot or CR123 cells.

Key details

- **Size:** 8.4 × 10.5 × 2.5 cm
- **Weight:** 60 g
- **Material:** 100 % nylon Cordura-grade fabric
- **Attachment:** full-back hook Velcro® (loop adapter patch not included)
- Holds standard NVG battery boxes, AA/CR123 trays or tungsten counterweights
- Color: **olive green** (other colors on request).

Why use a balance bag?

Shifting mass to the rear reduces neck strain and keeps the NVG pivot tight against the eyes when moving or prone—no more front-heavy wobble.
