### Good to know

- **440A steel** - stainless tool steel; trades some edge holding for excellent rust resistance and easy field sharpening.
- **Glass-breaker** - hardened tungsten carbide point punches side-windows for vehicle egress.
- **Belt cutter** - recessed razor slice frees trapped seat-belts without open blade risk.
- **Liner-lock** - a spring liner snaps behind the tang; push it aside to fold.

*Duty disclaimer:* Magnum Rescue models are fully functional but not engineered for daily abuse by career first-responders. For heavy professional use consider Böker Plus Savior or FKMD A.L.S.R. 2.

### Safety & handling

- Keep blade sharp - dull edges slip more easily and require extra force.
- Cut away from your body and maintain firm grip to prevent slips.
- Never pry; the blade is not a lever and may snap or fold unexpectedly.
- Store folded in a sheath; keep out of children's reach.
