Description

With the ColdWork™ series, Mechanix offers a range of cold protection gloves, from lightweight fleece solutions to heavy Primaloft and 3M Thinsulate™ combinations. For working in fresh cold air, Mechanix has developed the ColdWork™ FastFit® glove, which keeps hands comfortably warm with heat-retaining C40 3M Thinsulate™ insulation. A waterproof outer SoftShell layer keeps the back of the hand dry and prevents wind from getting in when working in cold weather. The palm also features the proven Mechanix synthetic leather with touchscreen technology. The FastFit® is easy to put on thanks to the elastic cuff. The ColdWork™ FastFit® provides insulation without sacrificing freedom of movement.

Details:

- Elastic stretch cuffs provide a secure fit.
- Waterproof SoftShell material on the back of the hand prevents cold air from entering.
- Comfortable fleece insulation keeps warmth in the glove without hindering your dexterity.
- Firm Armortex® reinforcement for the thumb saddle.
- Touchscreen-ready synthetic leather provides the perfect blend of dexterity and durability.
- Removable spring clip makes glove storage easy.

Performance level according to CE EN 388 Abrasion resistance: 1

CE EN 388 cut resistance performance level: 1

Performance level according to CE EN 388 tear resistance: 2

Performance level according to CE EN 388 perforation: 1
