Description

Snipers logbook with stone paper pages. Waterproof and oilproof, designed for use in extreme conditions. Material based on calcium carbonate and dense polyethylene does not absorb water, including on cut edges. Thanks to the fact that the pages do not absorb moisture or oily dirt, the notes are resistant to being smudged when accidentally touched with wet or muddy hands. It can be written on with a normal pen or pencil, as well as with the tip of a metal object, such as a key or bullet.

It provides an ideal means for recording notes during range activities, range classes, reconnaissance or operational activities. Allows you to conveniently and legibly record shooting results and make corrections. Inside are information tables, conversion tables, ammunition information, instructions for accurate shooting and wind measurements, tables of shooting results, azimuth sketches, as well as triage instructions and an azimuth protractor drawn on transparent polymer with a centimeter ruler, 1:25,000 and 1:50,000 scale.

Specification:

- Size 148 x 210 mm
- Weight 282 g
- Side spiral waterproof logbook
- Cover color - green
