Description

Companion is the perfect knife for an adventure, a real all-round knife. The tang runs three-quarters of the way up the knife, so that you can work with power and precision. The blade is made of carbon steel that we have treated according to our secret company recipe for optimal results. Keep in mind that carbon steel knives should be wiped and oiled after usage to avoid rust and corrosion. The soft friction grip is made of TPE rubber, making the knife feel secure and steady to work with. The polymer knife sheath includes a practical belt clip so that the knife can be attached to your rucksack or belt - always close at hand.

FEATURES:

- Blade length: 104 mm
- Total knife length: 219 mm
- Blade thickness: 2mm
