Description

Only your imagination can limit your possibilities with our Multi-Mount. The range of mounting options is endless, thanks to its Velcro strips, straps, holes, and notches. And of course, it is MOLLE compatible.

Kansbol brings you the best from two worlds. It has the flexibility of a lightweight knife, and the strength of a more robust model. This combination makes it a real all-round knife and a reliable partner in the forest, or when hiking, hunting or on the lake. The blade has been profile ground for increased precision and the spine grinding means the blade can be used with fire starter.

Together with the Multi-Mount fastening system, your Morakniv Kansbol is just seconds away. Place it on your snowmobile, canoe, or ATV - when the knife is placed in the holder it can take a bumpy ride on any vehicle. Attach and detach the knife from the mount in just a couple of seconds. Of course, it is also possible to just take the knife straight out of the sheath and use it. It is compatible with the MOLLE standard mounting system, and has strategically placed screw holes and slots for different types of straps.

Model - Morakniv Kansbol Multi-Mount

Segment: Outdoor, Construction
