Description

This is a first class all-round knife with profile grinding on the blade making it an optimal choice when taking care of the hunt. The Swedish stainless steel is of the highest quality, hardened and treated in our factory in Mora, according to our secret company recipe. It has a patterned friction grip made of TPE rubber, making the handle safe and firm. Also, the rubber means that the handle doesn't conduct the cold so working with the knife is equally safe and comfortable any time of year. The polymer knife sheath has an adaptable leather strap so the knife is always close at hand in your belt or rucksack.

Features

- Blade length: 109 mm
- Total knife length: 220 mm
- Blade thickness: 2,5 mm
- Blade Hardness: 56-58HRC

Weight [g]

140

Material

Edge: Stainless Steel/ Handle:
Polypropylene
