Description

On the one hand, the A.T.B. (All Terrain Blade) is a versatile robust flat knife for outdoor use. In addition, the handles of blue micarta can also be screwed around, so that the fixed blade is hidden. This offers a bottle opener and screwdriver in three sizes. The recess for the lanyard hole in the handle shell leaves in the covered state of the blade a short piece of the cutting free, which can be used for example for stripping of cables.

The Muela badge attached to the knife with orange cord can be used as a screwdriver for the grip screws. The used stainless chromium molybdenum vanadium steel 1.4116 has excellent properties both as a tool steel and as a blade steel. The A.T.B. comes with moisture-resistant blue Cordura scabbard.

Total Length:	19,5
Blade Length:	8,5
Blade Thickness:	4,0
Weight:	169,0 g
Blade Material:	4116
Handle Material:	Micarta
Color:	Blue

Muela

For 60 years, Muela from Spain has been one of the leading European producers of classical hunting knives. The family business, founded by Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
