Description

The Muela Lakhota Coral Wood is an appealingly curved compact knife with a flattering and at the same time grippy hand position and versatile field of application. The red sandalwood in combination with the finely structured surface treatment offers a charming look. The blade made of stainless 1.4116 is hollow ground. The scabbard made of brown, grainy grained leather has a push-button bottle for reliable protection against loss of the knife.

Total Length:	25,5
Blade Length:	12,5

ORDER CONFIRMATION

For 60 years, Muela from Spain has been one of the leading European producers of classical hunting knives. The family business, founded by Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
