Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
