Description

Micarta is difficult to top in terms of its suitability as a handle material for outdoor knives. It therefore stands to reason that Muela is now making the popular Rhino available in this version in combination with the particularly high performance [14C28N](#) Sandvik blade steel. The milled surface supports grippiness and gives the Rhino micarta green a special visual appeal that is further enhanced by the red fiber shim. Black/ Brown leather sheath for horizontal or vertical carrying configuration.

Total Length:	22,5
Blade Length:	10,5
Blade Thickness:	4,0
Weight:	222,0 g
Blade Material:	14C28N

ORDER CONFIRMATION

For 60 years, Muela from Spain has been one of the leading European producers of classical hunting knives. The family business, founded by Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
