Description

With their high-quality hunting knives "Made in Spain", Muela has become a figure in the scene for classic and modern hunting knives (and by now also increasingly for outdoor and bushcraft knives). The leather sheathes - which are also made by Muela in-house and are always premium grade - represent a special note. For their 60th company anniversary, Muelea gives us something to smile about with several limited edition models, which are made from specifically selected materials and are shipped as a premium edition in a collector's box.

The Setter Anniversary features blue, stabilized maple burl wood handle scales mounted with two beautifully decorative mosaic pins and inlaid into red fiber liners. [Böhler N690](#) is used as the blade steel. The nickel-silver bolster carries the unique serial number, while the blade features an anniversary laser engraving. Shipped with a leather sheath. Limited to 999 copies world-wide.

Total Length: 21,9
Blade Length: 10,4

Muela

For 60 years, Muela from Spain has been one of the leading European producers of classical hunting knives. The family business, founded by Eladio Muela in 1952, is today run under the cooperation of all its 5 children. Since its beginnings in the first small workshop, Muela has developed into a high-tech manufacturer with an annual production of some 350,000 knives. Despite modern computer-assisted production, however, manual work is still being promoted today. Above all, the elaborate processing of Stag, a specialty of Muela, is not possible by machine. This requires the many years of experience of the experts, who prepare and assemble the knife handles and the handle by hand. All production steps are carried out at Muela, even the production of high-quality leather is done in-house.
