Description

If you need to saw or cut wood while camping or other outdoor activities, the Outdoor Chainsaw is the practical helper. Equipped with 33 teeth, even thicker branches can be sawed off in a very short time. The paracord hand straps offer a secure hold and a total of almost 10 metres of rope in an emergency. The teeth can be sharpened as with a motorized chain saw. A small packing size and weight make the saw an indispensable component of the equipment.
