Description

The cutlery set made of high-quality stainless steel is framed by a noble wood application. The design is kept in pocket knife format, so the set fits in every trouser pocket. It is designed in such a way that it can be dismantled into two parts. The versatile cutlery set consists of a knife, fork and spoon including bottle opener and key ring. The fork can be separated from the knife and spoon and used separately. When plugged together, it is a compact set and can be easily stowed in your luggage. The two parts are locked together by the fork, which must first be opened to separate the two parts by sliding them apart.
