Description

Compact and practical grill with a large grilling surface. The hexagonal, foldable design favours the compact pack size, enables quick assembly and disassembly and stands stably on the ground. Thanks to its design, it can also be used as a fire bowl. Furthermore, the grill has an insertable base plate, a charcoal grate and a large centrally foldable grill grate. The foldable wall segments are designed like a windbreak and protect the embers from strong winds. The air holes incorporated in the wall segments are located below the charcoal grate and thus perfectly supply the embers with oxygen. The nylon carrying bag is included in the delivery.
