Description

Very warm, soft and light beanie made of 100 % merino wool weighing only 71 g. This wool has many positive properties. It is very odour-inhibiting, as bacteria have difficulty adhering to the wool fibres. The beanie has a high insulation capacity and temperature balancing properties, i.e. it warms when it is cold and cools when it is warm. It can absorb up to a third of its weight in moisture and wicks it away very well to the outside. It is also very skin-friendly and breathable. The beanie also adapts well to the wearer's head and hardly creases.

- Very warm, soft and light
- High insulation performance
- Odour-inhibiting and temperature-balancing
- Skin-friendly and breathable
- Crease-resistant
- Material: 100 % Wool
- Weight 71 g
