Description

The very lightweight poncho is waterproof, windproof and insulating. The reflective inner coating has a heat-insulating effect. Made of aluminium-vapourised PE foil, the poncho provides warmth under the most extreme conditions. The material is extremely tear and puncture resistant for its thickness and can therefore withstand extreme conditions. With a length of 135 cm, it covers at least the knees when standing and thus provides dryness and warmth. When moving, the material is extremely quiet. The poncho is available in two different versions: Emergency in bright orange as a signal colour for emergencies and camouflage olive green for bushcrafting, survival and trekking. A practical pack sack is included in the delivery.

- very light and small pack size
- waterproof and windproof
- extremely tear and puncture resistant
- low-noise material

Specification:

- Polyethylene terephthalate (PE), Aluminised
- Dimensions L 1,35 W 1,2 m
- Weight 72 g
