Description

Very light and soft Thermolite polyester inlett with a highly insulating function. The high-tech hollow fiber has similar moisture and heat regulating properties to the fur of polar bears, which it is based on. The ticking is breathable and lies comfortably on the skin. It dries quickly and offers pleasant warmth and comfort even when wet. Particularly suitable for cold and damp regions. The large side entry is provided with a practical zipper, which is additionally secured with a flap. The optimized mummy shape reduces the weight, increases the warmth value as an inner sleeping bag and has a hood with cord. Can be used as a hut sleeping bag for mountain and hiking tours, and as a travel sheet for long bus trips. Well suited as an inner sleeping bag for protecting and maintaining your sleeping bag. The Sleeping Liner also offers hygiene protection for overnight stays in hotels and youth hostels. The supplied packsack has a mesh back for optimal ventilation.

- compact pack size
- zipper with safety flap
- heat-regulating high-tech hollow fibre
- very warm, soft and light fabric
- very fast-drying and highly breathable
- Dimensions L 210 W 80 cm
