## Description

The compact, heatable and dry seat for the cold season or cold evenings outdoors. Ideal for any outdoor activity, whether in the snow, hunting, camping, festivals, at open-air concerts, where you don't always have dry ground under you. The chair has three heating levels that allow the heating output to be individually adjusted to suit personal well-being. Thanks to the foam layer in the backrest and seat, the chair is both well padded and insulated. The seat is stable thanks to the built-in side reinforcement and the adjustable side straps. With the side zips, the seat can be converted into a practical carrying bag and is therefore easy to transport or store due to its low weight. Made from robust and water-repellent polyester. Plug in the matching power bank article 180883 (not included in the scope of delivery) and off you go.

- 3 heat levels
  - sturdy, high-quality and durable outer cover
  - adjustable straps
  - side pocket for powerbank
  - lightweight and can be used as a carry bag
  - robust and water-resistant
- 
- Dimensions L 40 W 40 H 3
  - Weight 1,9 kg
  - 600D polyester PVC coated
