Description

Plastica Panaro MAX1090H510 Certified

Waterproof Case

The **Plastica Panaro MAX1090H510** is a **certified waterproof protective case** developed for high-demand professional and industrial use. Built to meet the most rigorous international and military standards, including **IP67**, **STANAG 4280**, **DEF STAN 81-41**, and **MIL-STD-810**, it ensures maximum safety for sensitive or valuable equipment against water, dust, and impact. Offering a **395-litre capacity**, the case is ideal for heavy-duty transport and field operations, combining Italian manufacturing precision with superior protection technology.

Key Features

- **Certified protection: IP67, STANAG 4280, DEF STAN 81-41, MIL-STD-810**
- **Watertight O-ring seal** provides full waterproofing and airtight protection
- **Automatic pressure release valve** for altitude and temperature equalization
- **Double-throw latches** for secure and easy opening, even with gloves
- **Load-tested soft-grip handle** for comfortable and reliable carrying
- **Padlock-ready holes** for enhanced security during transport
- **Full-length hinges** with 30% fiberglass-filled nylon pins for

durability

- **Stackable design** with interlocking geometry for efficient storage
- Available in two versions: **H (hinged)** and **R (removable lid)**
- **100% Made in Italy**

Professional Protection in Every Environment

The **MAX1090H510** is part of the renowned **MAX watertight series** – a line designed to safeguard equipment in extreme conditions such as **marine, military, industrial, and outdoor environments**. Whether used for transporting precision instruments, firearms, or sensitive electronics, this case guarantees impact resistance and full weatherproofing. Certified under **ATA300 Cat. 1**, it is suitable for repeated air transport and heavy-duty logistics operations.

Technical Specifications

Model	MAX1090H510-H
Certifications	IP67, STANAG 4280, DEF STAN 81-41, MIL-STD-810, ATA300 Cat.1, UN4H2
External Dimensions	1178 × 780 × 564 mm (46.38 × 30.70 × 22.99 in)
Internal Dimensions	1090 × 680 × 510 mm (42.91 × 26.77 × 20.07 in)
Cover Depth / Bottom Depth	70 + 440 mm (2.75 + 17.32 in)
Capacity (Volume)	395 L
Weight	23 kg
Materials	Polypropylene (body), Nylon (latches), Polymer (O-ring), Stainless Steel (wheel pins)
Construction	Injection-moulded polypropylene copolymer with reinforced hinge structure
Design Options	Available with hinges (H) or removable lid (R)
Colour	Black
Country of Origin	Italy

Certified Durability

The **MAX1090H510-H** undergoes extensive testing under NATO and U.S. military standards, ensuring consistent performance across diverse conditions:

- **IP67:** Waterproof and dustproof; submersible to 1 metre for 30 minutes.

Why Choose MAX1090H510-H

For users requiring **maximum capacity, certified durability, and easy access**, the MAX1090H510-H delivers an unmatched balance of protection and practicality. Whether configured with **hinges (H)** or a **removable lid (R)**, its design accommodates both stationary and mobile use. It's the ideal choice for **defence, logistics, industrial, and expeditionary applications** where failure is not an option. Backed by **Plastica Panaro's 60-year legacy** of quality craftsmanship, this case is a trusted partner for professionals worldwide.

Glossary

- **O-Ring Seal:** Prevents ingress of dust, moisture, and contaminants for IP67 rating.
- **Pressure Valve:** Automatically balances internal air pressure during altitude changes.
- **Stackable Design:** Interlocking shell geometry for secure stacking during storage or transit.
- **Polypropylene Copolymer:** Lightweight yet impact-resistant structure used for military-grade cases.
