Description

The OmniFuel is the champion amongst the Primus cookers. It works with almost every fuel – whether with liquid gas, petrol, diesel or kerosene – the kitchen never stays cold. The stove was tested over years and constantly improved. Now it is even more compact and the potholders can be opened and closed very soft. The nozzles are now marked very well and stored within the pedestals. The 3000 W of power can be regulated precisely through the controller. Within the scope of delivery are a wind protector, the Ergo Pump, a heat reflector and a storage bag.

- Performance 3.000 W
- Weight 350 g
- 14,2 x 8,8 x 6,6 cm
- Fuel gas (valve gas cartridges), petrol, petroleum, diesel and kerosene
- **No fuel bottle in the set**
