Description

Razors for interchangeable blades have a long tradition, they shave gently, gently and cleanly. Suitable for facial shaving, intimate shaving, body shaving, leg shaving etc.

The butterfly mechanism with a closed comb allows the razor blade to be changed quickly and safely (the razor head opens by turning the movable part at the end of the handle). Perfect contours for sideburns or at the base of the beard are no longer a problem.

This easy-to-handle, one-piece plane made of black chrome-plated brass is a small marvel of precision. The handle is 8 cm long.

Brand country - Germany.
