### Description

RECON PRO rescue harness is multifunctional harness for recovery and carrying of wounded.

The RECON PRO bag from the Recon Tactical series is designed to hold a recovery line. Specially designed for the recovery of wounded in a firefight. On the front is a rubber lip opening for the recovery line and an elastic rubber strap loop to accommodate a carabiner. On the back is a MOLLE/ PALS attachment with TecSys clips. The TecSys plastic clips with safety function can be used modularly and are suitable for all systems with a 25 mm mount and as well as for any belt or waist belt

The RECON PRO rescue harness is a webbing sling made of extremely robust nylon with a length of 350 cm (double laid) and with a centrally placed D-ring. The RECON PRO rescue sling is multifunctional sling for rescue and carrying of wounded

Details:

- Rubber lip opening for the recovery line on the front side.
- Rubber strap loop for carabiner attachment.
- MOLLE/ PALS attachment system.
- 2-way YKK® zippers.
- Multifunctional rescue belt with D-ring.
