- **Stitch-Free** – bridge wound edges without needles or anaesthetic.
- **Adjustable Tension** – twin pull-tabs let you fine-tune closure pressure.
- **Secure Adhesion & Durable Fleece Backing** keep the closure in place during healing.
- **Rapid Deployment** in field, travel, sport, camping, range, workshop or disaster kits.

### How to Use (summary)

1. Put on gloves. Clean wound area with alcohol swab & BZK pad.
2. Apply sterile gauze to blot excess blood.
3. Peel backing and apply closure strip so each side adheres firmly on dry skin.
4. Pull tension tabs until wound edges meet; press tabs down to lock.
5. Cover with transparent dressing or gauze & bandage if additional protection needed.

**Note :** For deep or heavily contaminated wounds, severe bleeding or signs of infection, seek professional medical help immediately.
