Rite in the Rain All-Weather ballpoint pen refills write on wet paper and upside down. The pressurized ink cartridge works in temperatures from -35°C to +120°C

Description

Rite in the Rain All-Weather Pen Refill

The **Rite in the Rain All-Weather Pen Refill** is a pressurized ballpoint ink cartridge designed to keep writing when ordinary refills fail. It writes reliably on wet paper, upside down, and in extreme temperatures, making it ideal for outdoor, military, industrial, and expedition use.

The refill uses a **pressurized ink system** that performs from **-35 °C to +120 °C** and even writes under water. It is compatible with almost all Rite in the Rain metal All-Weather pens and includes a **Parker®-style retrofit adapter** for flexible fitting.

Aim of the Product

Designed to extend the service life of Rite in the Rain All-Weather pens and ensure dependable writing performance in rain, snow, mud, heat, cold, and inverted positions.

Key Features

- Pressurized ink cartridge writes at any angle, even upside down
- Works on wet paper and through water
- Reliable performance in extreme temperatures
- Ink writes through water, sweat, grease and mud
- Includes Parker®-style adapter for compatibility
- Made in the U.S.A.
