Description

The 'Alpine Hut' is an alpine tent for the whole family. It is inspired by expedition tents of Salewa but is not intended for the use in extreme high mountain regions. It is ideal for everybody who are underway with family or friends and who want to have a high quality tent. Easy as pie build up and thanks to the crossing rods extremely solid. The tent is very spacious in the inner and offers a big usable area as well as a luggage net. The anteroom offers two windows and the 6-person version puts forward with a second sleeping-cabin and additional panorama windows.
