Blade Material

AUS-8 Stainless Steel (approx. 58-59 HRC)

Handle Material

TPE (Thermoplastic Elastomer)

Blade Thickness

Approx. 2 mm

Design and Performance

The knives are designed to provide a balance between sharpness, durability and ease of maintenance. AUS-8 steel offers good corrosion resistance and edge retention, making it suitable for both professional and frequent use. The textured TPE handles ensure a firm and secure grip, even when working with wet or greasy hands, improving safety and control during cutting tasks.

About Samura

Samura is a knife brand founded in 2003, combining Japanese blade-making traditions with modern design and European quality standards. The company uses high-quality steels such as AUS-8, VG-10 and MoV to produce knives suitable for both professional chefs and demanding home users. Samura knives are known for their precision grinding, ergonomic handles and reliable cutting performance across a wide range of applications.

FAQ

What tasks is this knife set suitable for? h as boning, skinning, filleting, carving and general meat processing.

Is AUS-8 steel good for kitchen knives? d balance of sharpness, corrosion resistance and durability, making it suitable for regular use.
