PTFE & Ceramic High-Tech gun
cleaner

Description

SchleTek 2 in 1 Gun Tuning is a high quality PTFE and Ceramic cleaner. Applicable on fire arms, air guns and knives. High temperature resistance from -40° C to +750° C.

1. Tuning

2 in 1 Gun Tuning leaves a microscopic PTFE based film behind in the barrel that works dirt repellent and at the same time increases the sliding effect. Due to this, one does not suffer from the well-known oil shot. In addition, ceramics have been used for heat resistance, causing the spray to withstand temperatures from -40°C to +750°C. It can be applied to the barrel, the trigger mechanism and all seals. It is also ideal for antique weapons whereby the trigger cannot be adjusted. With PTFE, trigger resistance will be significantly reduced.

2. Care

2 in 1 Gun Tuning is transparent, non-sticky and non greasy. It protects against corrosion for a long period of time. Gunpowder and other types of
