### Description

A water stone designed for effective sharpening, re-profiling, and fine honing of various blades. Manufactured according to the **Japanese JIS R6001 Standard**, this dual-grit stone (240/1000) is perfect for grinding severe damage, improving blade geometry, and delivering everyday sharpness.

### Key Features:

- **Dual Grit (240/1000):**
  - 240 grit (57.0µm) for grinding severe damage, re-profiling, and reshaping blades.
  - 1000 grit (11.5µm) for fine sharpening, perfect for everyday use.
- **High Quality:** Made from **Corundum AI203**, ensuring long-lasting performance and minimal wear.
- **Versatile Applications:** Suitable for kitchen knives, scissors, garden tools, axes, machetes, razors, chisels, pocket and hunting knives.
- **Durable and Fast Sharpening:** The hard stone, following Japanese standards, ensures faster sharpening and a longer lifespan.
- **Ergonomic Size:** Comfortable dimensions (180x60x28mm) for easy handling during sharpening.
- **Safety First:** Comes with a **rubber anti-slip mat** to provide stable and
