## Description

Built for long range shooting, the Sightmark Latitude 8-32x60 F-Class Riflescope offers precision tracking and exceptional clarity, even at maximum magnification, to help you bridge the gap from mid- to extreme-distance precision. Built on a rugged 34mm aircraft-grade aluminum tube with an oversized 60mm objective lens, the shockproof, IP67 waterproof, dustproof and fogproof Latitude is ready for precision shooting even in low light and tough environments. The Latitude is recoil rated up to .50-cal and features premium, scratch-resistant, fully multi-coated glass; a fine-etched, red/green illuminated F-Class, second-focal-plane reticle; 4:1 zoom ratio; quick-set external zero-stop ring; large, tactile turrets with distinct clicks; locking, fast-focus eyepiece; 1/8-MOA per click turrets with 110E and 70W MOA adjustment range and a lifetime warranty. While the Latitude 8-32x60 also comes with a sunshade, CR2032 battery, manual and a lifetime warranty, it does not include an exorbitant price tag.

Sightmark Latitude FTR 8-32x60 F-Class Riflescope (SM13043FTR) brings reliability and affordability for long-range shooters. Boasting a lower price than the competition, the Latitude's 60mm objective lens gives it an edge over competitors making for a more efficient long-range and extreme long-range riflescope. Although the competitor is waterproof, the Latitude FTR is IP67 waterproof, meaning they're able to withstand water immersion up to 1 meter for 30 minutes. The Latitude beats the competitor overall with better specifications in eye relief, adjustment range, and overall length. Latitude offers more features such as reticle illumination, zero stop function, with the addition of locking eyepiece.

### Features

- Premium Glass - Fully multi-coated, scratch-resistant glass for a clean field of view at any magnification power
- Second-focal-plane red/green illuminated reticle - Strong and easy-to-see reticle with adjustable brightness is perfect for any time of day
- Oversized 60mm objective lens - A larger objective lens gathers more light, giving you an edge at dawn and dusk
- Oversized adjustment turrets - Large exposed turrets for quick and easy grab/adjust provide precise, confident adjustments
- Generous W/E adjustment range - Extended 110 MOA elevation and 70 MOA windage turret adjustment range give you the flexibility you need
- Zero-stop elevation dial - A "no look" return to zero means you can make on-the-fly adjustments without fear of losing your baseline zero
- 34mm single-piece tube - Compatible with any available aftermarket 34mm rings or mount
- Locking, fast-focus eyepiece - Ensure that your diopter setting stays right where you want it with our new locking eyepiece
- Lifetime warranty - Lifetime warranty upon registering product

### Specification:

- F-Class Reticle, etched
- Focal plane: second
- 4:1 Zoom ratio
- Magnification: 8-32x
- Objective lens diameter: 60 mm
- Scratch resistant lenses
- Red and green illuminated reticle
- Single-piece, 34mm tube
- Aircraft grade aluminum
- Hard anodized finish
- Nitrogen filled
- Shockproof, fogproof, waterproof
- Fully multi-coated optics
- Size 357x90x75 mm
- Operating temperature: -28 to +71 C

### USING THE F-CLASS RETICLE

Sightmark Latitude F-Class Riflescope was designed for F-Class competition shooting. The reticle is based on minute of angle (MOA) design. Minute of angle is a measurement of angle. A single MOA is equal to 1.047" at 100 yards or simply 1". The adjustments in the Latitude 10-40x60 F-Class riflescope is 1/8 MOA, while the Latitude 6.25-25x56 F-Class Riflescope has 1/4 MOA. This means that each click of 1/8 MOA adjustments will move the point of impact .125" at 100 yards, and 1/4 MOA adjustments will move the point of impact .25" at 100 yards. The reticle is a second focal plane reticle. This style of reticle will always remain a constant size as magnification is increased. The advantage of a second focal plane reticle

is that the reticle size will remain the same, ideal size. At the highest magnification, the reticle has a fine .06 MOA aiming dot. Making it easy to aim precisely and not cover up the target. At 1,000 yards the reticle would cover .6" of the target.

Brand country - U.S.

### **About Sightmark**

Best-selling products include red dot sights, riflescopes and chamber laser bore sights. More than one million Sightmark bore sights are in use since first released to the market. Sightmark has earned several patents and awards from industry associations and publications including Field & Stream, Optics Planet, Outdoor Life and Predator Xtreme. Numerous optics and accessories have been field tested and approved by prominent outdoor organizations such as the North American Hunting Club and the National Tactical Officers Association.

Currently, Sightmark represents leading markets growing in more than 40 countries and many quality retailers in every state. Products are sold by top retailers and national specialty chains such as: Academy Sports & Outdoors, Bass Pro Shops, Cabela's, Dick's Sporting Goods, Frankonia, Gander Mountain and many more.
