Description

Silva Exceed 3XT Headlamp

Overall Description

The **Silva Exceed 3XT** raises the bar for high-output, multi-sport headlamps. By pairing a 9.9 Ah rechargeable power pack with advanced optics, it delivers brighter light and greater flexibility than previous Exceed models—all without extra weight. Updated ergonomic buckles, a redesigned back plate for balanced battery mounting, and a smart cable guide give you more carrying options whether you're charging downhill runs or hammering single-track.

Aim of the Product

Built for athletes who demand maximum visibility and runtime during **downhill skiing, mountain biking, or endurance adventures**. Exceed 3XT offers:

- Up to **2200 lumens** in Boost Mode for technical descents
- Super-low mode (80 lumens) for long-distance training sessions
- Customizable beam patterns—wide flood or long-reach spot—at the tilt of your head

Audience

Perfect for pro and amateur skiers, bikers, trail runners, orienteers, and multi-sport explorers who need a rugged, weather-proof lighting system with helmet and bike compatibility straight out of the box.

ORDER CONFIRMATION

Product Use

- Mount the lamp on your **headband, helmet, or handlebar** using the included brackets.
- Secure the 9.9 Ah battery to your belt, frame, or back plate with the Velcro strap—or pocket it to lighten head weight.
- Monitor charge status via the built-in *indicator*; low-battery warning automatically triggers *reserve mode* so you reach home safely.
- Recharge via USB (~ 10 h from empty) and store the lamp in the supplied nylon pouch between missions.

Specifications Technical Details

- **Article No.:** 37740 | **Series:** Exceed
- **Light source:** 3 × high-power LEDs + 1 × green/red LED
- **Lumens:** 80 – 2000 (Boost 2200)
- **Beam distance:** up to 220 m
- **Battery:** Li-Ion 7.4 V / 9.9 Ah (USB-rechargeable hard case)
- **Runtime:** up to 60 h*
- **Charging time:** ~ 10 h
- **Weight:** 129 g lamp only | 500 g incl. battery
- **Water resistance:** IPX5 (jet-proof)
- **Connection system:** Compatible with all Silva Li-Ion batteries (2008 )

*Runtime in Super-low mode (80 lm) at +20 °C.

Other Useful Information

Included Accessories

Nylon bag, 9.9 Ah battery, wide anti-slip headband, detachable top band, headband back plate, helmet bracket, bike bracket, back cable guide, side cable guide, extension cord with textile strap, USB cable adaptor, quick guide.

Key Features Technologies

- **Silva Intelligent Light®** – fixed mix of long-reach spot + close flood for fewer head moves and better balance
- **Silva Flow Light** – tilt-to-tune beam width for fast vs. slow sports
- **Boost Mode (2200 lm)** – instant max light for tricky sections
- **Reserve Mode** – automatic power-save setting when battery is low
- **Optimized Weight Distribution** – choose back-of-head plate or minimalist cable guide and stash the battery in a pocket

Glossary

- **Lumen (lm):** Unit of total light output; higher = brighter.
