Silva MR70 Taktik Tactical Headlamp - Multi-Spectrum Military Lighting

The **Silva MR70 Taktik Tactical Headlamp** is a **professional-grade, multi-spectrum headlamp** designed for military, medical, and tactical operations. Built for reliability and discretion, it provides **adaptive light modes** tailored to meet the demands of rapidly changing environments – from night missions and navigation to field medical tasks and training.

This compact and durable headlamp features **white, red, blue, and infrared (IR) LED modes** for maximum versatility. Whether you need to preserve night vision, perform medical checks, or use night vision goggles, the MR70 Taktik delivers the right illumination with precision and control. Its **IPX7 waterproof construction** ensures performance even in the harshest conditions, while the improved **helmet/belt clip** provides secure attachment for tactical mobility.

Key Features

- **IR LED (840 nm):** enhances visibility with night vision goggles.
- **IR Blink mode:** designed for training and signaling purposes.
- **Blue LED (450 nm):** ideal for medical use, detecting fluids, and detailed inspection.
- **Red LED (650 nm):** preserves natural night vision when reading maps or equipment displays.
