### Description

#### Snigel Braces v2.0 – Tactical Pants Suspenders

The **Snigel Braces v2.0** are practical tactical suspenders designed to keep your trousers securely in place during active use. They are especially useful in **winter conditions**, when extra layers and heavier gear can make waist belts less comfortable or less stable.

Inspired by the classic **US Army braces from the 1950s**, this system attaches to the **sides of the trousers**. You thread the braces around the belt or through the trouser bands, creating a stable carry that works well with field clothing and load-bearing equipment.

A key advantage in real use: when you need to answer nature's call, you can simply **release the braces at the sides** and pull down the trousers without removing a vest or padded jacket. The **v2.0 update adds a hook** that makes attaching the braces to your trousers quicker and easier.

### Key Features

- **Purpose:** Keeps tactical trousers securely in place
- **Best for:** Cold weather, layered clothing, active movement
- **Design inspiration:** US Army braces (1950s style)
- **Attachment:** Side attachment to trousers; thread around belt or through trouser bands
- **Convenient quick release:** Release sides to lower trousers without removing outer gear
- **Version 2.0 upgrade:** Added hook for easier attachment

## ORDER CONFIRMATION

---

- **Weight:** approx. 100 g

## Use Notes

- Thread the braces around your belt or through the bands on your trousers, then attach at the sides.
- For quick restroom access in the field, release the side attachment points and pull down the trousers.
- Check attachment points before movement-heavy tasks (running, climbing, kneeling) to ensure a secure fit.

## Safety & Warnings

- Always ensure the braces are correctly attached before strenuous activity to avoid sudden release.
- Keep the hook and attachment points free of dirt/ice for reliable fastening in cold weather.
- Do not use as a lifting or dragging strap.

## FAQ

**How do these braces attach to the trousers?** You thread the braces around the belt or through the trouser bands and secure them at the side attachment points.

**What does the improved design include?** A hook to make attachment to trousers quicker and easier.

**Why are they especially useful in winter?** Garments, belts can shift or feel uncomfortable. Braces help keep trousers stable without over-tightening the waist.

**Can I use them while wearing a vest or padded jacket?** Yes, convenient with bulky outer layers—release the sides and lower the trousers without removing your upper gear.

## Glossary

- **Braces / Suspenders:** Straps worn over the shoulders to support trousers.
- **Side attachment:** Fixing points on the trouser sides that allow quick release and reattachment.
- **Hook attachment:** A fastening method that makes clipping the braces to trousers easier and faster.

## About SNIGEL (Sweden)

*Snigel* (Swedish for “snail”) designs user-centred gear that is as practical and self-contained as the snail’s shell. Founded by airborne ranger PH Magnusson, SNIGEL leverages 30 years of operational experience to build modular, mission-ready equipment for defence and law-enforcement professionals worldwide.
