## Description

A belt ergonomically designed to improve comfort when carrying heavy loads.

Fits:

All pouches and holders

Fits on:

Everybody

Features:

- Inner and outer belt construction
- Ergonomically shaped to fit around the body and hips
- Non slip inside to minimize the pressure required to keep the belt up
- Padded inside belt for comfort
- Three point security buckle, prevents unwanted opening
- Outer safety strap for added security and to hold gloves
- Channel for cable ties
- Velcro to attach on your current pouches and holsters is supplied with the belt
- An ergonomically designed belt to improve your comfort when you carry a heavy load.
- Padded inner and semi rigid outer belt construction.
- Ergonomically shaped to fit around the body with minimum pressure.
- High friction inside to minimize the pressure required to keep the belt up.
- The outer belt is reinforced with a semi rigid plastic sheet so it will stay up when loaded with a pistol holster.
- The belt supports the load, does not twist or sag and remains comfortable.

## ORDER CONFIRMATION

---

- A three point security buckle prevents unwanted opening.
- Extra security strap over the buckle for added safety. This strap also serves as a glove holde.
- The inner belt is shaped to be placed around your body, not to be hanging straight. This makes the belt more comfortable as it has no wrinkles on the inside.
- The inside of the belt is made of a high friction fabric that "glues" the belt to you. This prevents the belt from moving on your body and keeps it in place with less pressure than you need with other belts.
- The belt is without seams on the inside and padded with foam to be as comfortable as possible. Outside the foam, a one mm thick plastic sheet is placed to keep the shape of the belt and to prevent uneven pouches from poking into your body, causing discomfort.
- In the front of the inner belt there is a channel were you can place cable ties.
- The outer belt is rigid to support the weight of the pistol holster.
- It can be adjusted in length in both ends.
- Velcro attaches the outer belt to the inner belt.
- The front of the outer belt is secured to the inner belt with a band and press buttons.
- The buckle is a three point security buckle that has to be pressed in three places to be opened.
- In the front of the belt a D-ring and a security strap are placed.
- When closed they give you added security and they prevent the belt from being accidentally opened.
- Under the security strap you can place your gloves.

The belt fits the following waist measurements:

- XSmall: 65-93 cm
- Small: 75-103 cm
- Medium: 85-113 cm
- Large: 95-123 cm
- XLarge: 105-133 cm
- XXLLarge: 120-148 cm

Designed in Sweden, made in the EU.
