Description

Snigel Small Notebook Cover 2.0

The **Snigel Small Notebook Cover** is a lightweight, flexible and durable protection solution for smaller field notebooks. Designed for tactical, professional and outdoor use, it provides quiet and easy access to essential notes while protecting them from moisture and wear.

Made from hard-wearing, moisture-resistant materials, the cover closes securely with a **silent elastic strap**, offering longer service life and quieter operation compared to traditional Velcro closures. Compact enough to fit in a trouser or jacket pocket, it can also be worn around the neck using an attached cord.

Both inside and outside surfaces feature **writable panels** for temporary notes. Simply write with a pencil and wipe clean with a wet finger when no longer needed. A rear window pocket allows storage of a small folded map or memory card, while an internal pen holder keeps writing tools secure.

Key Features

- Fits notebooks sized **75 × 130 mm**
- Internal attachment for pen
- Writable panels inside and outside (pencil compatible)
- Moisture-resistant and highly durable construction
- Silent elastic strap closure
- Rear window pocket for small map or memory card
