Description

The Snugpak Jungle Bag is a sleeping bag for tropical climates with an extremely small pack size. The outer fabric is made of MicroDiamond, a lightweight, water repellent fabric made to Snugpak's exact specifications. The diamond structure and sheen of the yarn give this fabric a unique look and feel. The Travelsoft insulation is made of ultra-light high-loft fine fibers that have excellent compressibility. The inner lining is made of Paratex Antibacterial. Paratex is a highly breathable and moisture wicking fabric. The inner lining is antimicrobial treated and counteracts the growth of odor-causing bacteria.

The Jungle Bag also features a roll-in mosquito net that can be zipped over the face to prevent annoying insects from entering. Due to its square shape, the Jungle Bag can be used as a blanket when fully opened. All this makes the Jungle Bag thus the perfect sleeping bag for warm summer and tropical nights.

Temperature range: comfort 7° C, extreme 2° C.

Details:

Right zip - zipper on the right side.

Integrated mosquito net.

Integrated inner pocket.

Antibacterial fabric reduces the growth of bacteria, resulting in a reduction of odors.
