from Snugpak is a sleeping bag
with center zipper, for
temperatures above freezing

Description

Snugpak Special Forces 1 WGTE Sleeping Bag

The Snugpak Special Forces 1 WGTE Sleeping Bag offers versatile comfort and can be used independently for above-freezing temperatures or as part of a complete system. When paired with the Special Forces 2 WGTE, this bag can be zipped together to create an extreme cold-weather sleeping bag capable of handling temperatures as low as -15°C. The Special Forces system allows you to adapt your setup to various conditions, providing superior flexibility for any outdoor adventure.

How the Complete System Works

The full Special Forces System includes the Special Forces 1 WGTE for above-freezing temperatures and the Special Forces 2 WGTE for colder conditions down to -10°C. For extreme environments, layer the Special Forces 2 WGTE inside the Special Forces 1 WGTE and secure with an additional zip baffle, creating a sleeping bag suited for temperatures down to -20°C. The design ensures easy use with a central quick-release zip for convenient access.

Key Features

- Compatible with the Special Forces 2 WGTE to create a -15°C rated sleeping bag
- No stitch-through construction to minimize cold spots
