Description

Specially formulated cleaner for Merino and Wool items. pH to perfectly suit and maintain wool.

Woolen garments are soft to touch when new and require specific treatment to maintain its unusual characteristics. With low thermal conductivity, wool keeps you warm in cold temperatures and cool under hotter conditions. It also perfectly operates as a humidity regulator, as it can absorb up to one third of its own weight without feeling wet. Using a wool suitable cleaner ensure the natural oils and handle are not harshly stripped out or damaged. Our Storm cleaner protect the wool from becoming hard, stiff and also from shrinking.

Properties:

- Three Wash bottle
- pH Balanced
