Description

Suited Systems "BEEHIVE" 50L ISR Drone Pack

Important: If the product is not in stock, delivery time may take up to **30 days** after placing the order.

The **Suited Systems "BEEHIVE" 50L ISR Drone Pack** is a mission-oriented backpack developed specifically for tactical drone operators who require secure transport, fast deployment, and modular adaptability without unnecessary bulk. Designed in cooperation with BRASA engineers and active UAV pilots, the BEEHIVE supports real-world ISR drone operations in demanding environments.

Optimized for platforms such as the **Autel T4 Evo Max** and similarly sized ISR drones, the BEEHIVE offers a fully configurable interior, dedicated battery storage, and rugged construction suitable for field use, transport, and extended missions.

Aim of the Product

Designed to provide organized, protected, and rapidly deployable transport for ISR drone systems, batteries, electronics, and mission accessories in tactical and professional environments.

Key Features

- 50-liter capacity optimized for ISR drone systems
- Modular interior with mil-spec hook & loop panels
- Dedicated battery panel for up to 8 drone batteries
- Padded laptop / tablet compartment (up to 15")

ORDER CONFIRMATION

- Integrated rain cover for weather protection
- Ergonomic carry system for extended use
- Designed and tested with active drone operators

Modular Mission-Oriented Design

The BEEHIVE features a fully customizable interior built around high-strength mil-spec Velcro panels. Modular dividers allow the pack to be configured for drone bodies, arms, gimbals, payloads, controllers, sensors, and accessories. The layout can be reconfigured as equipment evolves, extending the service life of the pack.

Battery & Electronics Management

- Dedicated battery load-out panel with 8 padded sleeves
- Prevents battery contact and shorting during transport
- Quick-access design for rapid battery swaps
- Padded rear laptop/tablet panel doubles as protective back plate

Construction & Weather Protection

The exterior combines **Cordura** with a **LiteShell body**, reinforced stitching, **Duraflex hardware**, and mil-spec Velcro. A built-in rain cover deploys quickly to protect sensitive electronics during rain or harsh weather conditions.

Specifications

Volume	50 L
Weight (empty)	Approx. 3.1 kg
Drone Compatibility	Autel T4 Evo Max; adaptable to similar ISR drones
Battery Capacity	Up to 8 standard drone batteries
Laptop Compartment	Up to 15", padded
Materials	Cordura, LiteShell body, Duraflex hardware, mil-spec Velcro
Weather Protection	Integrated rain cover

What's Included

- BEEHIVE 50L ISR Drone Pack
- Modular hook & loop inserts / dividers
- Battery panel with 8 sleeves
- Padded laptop / tablet panel
- Built-in rain cover

ORDER CONFIRMATION

Which drones fit inside the BEEHIVE pack? and similarly sized ISR drones. The modular interior allows adaptation to different layouts and future drone upgrades.

How many batteries can it carry? It holds up to 8 standard drone batteries.

Is the pack suitable for long carries? The panels, and balanced load distribution make it comfortable for extended movement.

Does it include weather protection? Yes, it is protected and can be deployed quickly to protect electronics.

Can the interior be reconfigured later? Yes, it is modular and adjustable using mil-spec hook & loop panels.

Glossary

- **ISR:** Intelligence, Surveillance, and Reconnaissance
- **UAV:** Unmanned Aerial Vehicle
- **Mil-spec Velcro:** Industrial-grade hook & loop fastener used in military equipment
- **Cordura:** High-durability fabric resistant to abrasion and tearing
