Description

Suited Systems FAK Backup (Refill) Kit

The **IFAK BACKUP** is a compact trauma kit designed around the MARCH/TACTICAL emergency care sequence. It contains the essentials for rapid self-aid or buddy-aid in bleeding control, airway support, chest injuries, circulation and hypothermia management. Packed in a flat, vacuum-style pouch for fast access and easy placement in packs or plate carriers.

Main Features

- Purpose-built for **MARCH**: Massive hemorrhage, Airway, Respiration, Circulation, Hypothermia/Head injury.
- Carefully selected, field-proven components (tourniquet, hemostatic gauze, chest seal, airway, etc.).
- Flat pack layout for fast identification and deployment.
- Gloves, shears, tape and documentation included for complete incident handling.

Contents

Qty	Item	Use / Notes
1 x	Tourniquet (CAT-type)	Massive hemorrhage control on limbs
1 x	Hemostatic gauze (Z-fold)	Wound packing for severe bleeding
1 x	4'' Pressure/emergency bandage	Pressure dressing for major wounds
1 x	Compressed gauze	Wound packing, additional absorption
1 x	Occlusive chest seal (e.g., FoxSeal)	Open chest wounds / sealing penetrating trauma
1 x	Nasopharyngeal airway + lubricant 5g	Airway adjunct (with gel sachet)
1 x	Bandage	Fixation of dressings
1 x	Medical tape roll	Securing dressings & devices
1 x	Trauma shears	Cut clothing, tape and bandages
2 x	Nitrile gloves	Personal protection
1 x	Emergency (thermal) blanket 160 x 210 cm	Hypothermia prevention
1 x	Eye shield w/garter	Protection of ocular injuries
5 x	Plaster with wound pad	For treating basic wounds
1 x	Triangular cloth	Immobilization, sling or bandaging
1 x	Casualty card (CC) with lanyard	Patient documentation / handover
1 x	9-liner report card	Casualty report sequence over radio
1 x	Permanent marker (black)	Time-stamping tourniquet, notes on CC
1 x	Decompression needle	Advanced use for tension pneumothorax (restricted)

Intended Use

This kit is intended for trained users performing immediate trauma care in tactical, range, hunting, law-enforcement or field settings. It supports interventions following the **MARCH** algorithm: Massive hemorrhage control, Airway management, Respiration (chest injuries), Circulation and Hypothermia.

Important Legal & Safety Notice

According to **Latvian Cabinet of Ministers Regulation No. 720 (adopted 21 November 2017, in force since 1 January 2018)**, the use of certain invasive medical devices such as *needle decompression (dekompresijas adata)* is legally restricted. These items may be applied only by **certified medical personnel** – such as military medics, rescue medics, or licensed healthcare professionals. They are **not intended for civilian self-use** without proper certification and training.

ORDER CONFIRMATION

This kit is provided for professional, military or institutional procurement. Private users must comply with national laws and regulations regarding restricted medical devices.

Notes & Safety

- Some items require formal medical training (e.g., tourniquet application, airway adjuncts, wound packing).
- Inspect contents regularly and **replace** any used or expired items.
- Store in a dry place. Keep out of reach of children.

Other Useful Information

- **No pouch included** - designed for restocking or integrating into existing carriers.
- **Protocol ready:** includes instruction and protocol cards (MARCH & ABCDE).
- **Combat-proven components** - trusted worldwide in both civilian and military medicine.
- **Compact & efficient packaging** - optimized for rapid access in emergencies.
