Description

Suited Systems IFAK Pack

The **Suited Systems IFAK (Individual First Aid Kit)** is purpose-built for professional responders who operate under TCCC protocols. Organized to the **M.A.R.C.H.** sequence (*Massive Hemorrhage, Airway, Respirations, Circulation, Head / Hypothermia*), this kit pairs a tear-off Cordura® pouch with combat-proven medical supplies.

The set includes:

- **Upper compartment:** Thermal blanket; Hemostatic dressing; Compressed gauze; 28 F nasopharyngeal airway; Plaster with wound pad.
- **Pouch external elastic holder:** Tourniquet.
- **Zip mesh pocket:** Nitrile gloves; Mini medical tape; Eye shield; Lubricant.
- **Inside pocket:** Chest seal; Decompression needle; Trauma shears; Marker; Combat Casualty Card; Nineliner Card; User guideline/content sheet.
- **Lower compartment:** Triangular cloth; 4" emergency bandage; Fixation bandage.

Aim of the Product

Engineered to let *trained and certified personnel* deliver lifesaving care in seconds. The tear-away base plate plus side-release buckle enables one-handed deployment, while the laser-cut MOLLE panel secures the kit to

belts, vests or packs until needed.

Audience

Military medics, SOF operators, law-enforcement officers, remote-area guides and prepared civilians who demand EU-made gear that meets the rigours of Baltic winters and desert deployments alike.

Product Use

- Mount pouch via **laser-cut MOLLE**; secure with secondary buckle.
- In an emergency, pull upward to **tear off** the pouch, then unzip using the dual non-locking pulls.
- Follow the **M.A.R.C.H.** order—elastic loops, inner pocket and dual-sided mesh lid keep items staged.
- Restock or customise: kit is available *empty* or *pre-packed* with CAT GEN7 tourniquet, Celox gauze, and CVN chest seals.

Specifications & Technical Details

- **Pouch material:** IRR-treated Cordura® 100 % polyamide (water-resistant)
- **Construction highlights:**
 - Laser-cut MOLLE with tear-off platform
 - 2 × non-locking zipper pulls
 - Side-release security buckle
 - Internal: elastic bands, separate sleeve, twin mesh pockets
- **Medical contents (when pre-packed):** CAT GEN7 combat tourniquet, Celox hemostatic gauze, CVN vented chest seals + ancillary items (field-tested, expert-approved)
- **Origin:** Made in Europe (Riga, Latvia final assembly)

Other Useful Information

Some suggestions to improve any IFAK if needed

- Swap-ins for climate: In cold Baltic winters, you might toss in a heat pack or two alongside that thermal blanket.
- Pain control: Some folks add OTC painkillers (in a tiny blister pack) so they're always on hand.
- Label love: A bright tab or patch on the outside for your tourniquet can make it grab-and-go, even with gloves.
- Spare gloves: One extra pair never hurts—nitrile tears at the worst moments.
- Tailor to tasks: If you're outdoors a lot, consider a small water-purification tablet strip or a mini splint.
