Description

Suited Systems IFAK Pouch – Empty Shell

The **Suited Systems IFAK Pouch** is a rugged, IRR-treated Cordura® carrier built to safeguard and organise lifesaving medical supplies. Sold *empty*, it gives medics and prepared civilians the freedom to load mission-specific contents in a layout optimised for fast trauma care.

Aim of the Product

Engineered as a tear-off, laser-cut MOLLE pouch that lets you mount securely on belts, chest rigs or packs—then rip free in seconds when every heartbeat counts. Elastic loops, an inner sleeve and twin mesh lid pockets stage components in logical order.

Audience

Military and law-enforcement operators, search-and-rescue teams, remote-area guides and preparedness enthusiasts who want EU-made durability and the ability to customise their own IFAK load-out.

Product Use

- Weave the **laser-cut MOLLE** base onto your gear; secure with the side-release buckle.
- To deploy: pull upward to **tear off** the pouch, unzip via the dual non-locking pulls.

ORDER CONFIRMATION

- Load tourniquets, hemostatics, chest seals, etc., into **elastic bands**, inner sleeve and double mesh pockets following your preferred treatment algorithm (e.g., M.A.R.C.H.).
- Re-dock the pouch to its base and buckle for rapid re-use.

Specifications & Technical Details

- **Material:** Water-resistant Cordura® - 100 % polyamide (IRR treated)
- **Main construction:**
 - Laser-cut MOLLE panel
 - Tear-off platform + side-release buckle
 - 2 × non-locking zipper pulls
 - Internal sleeve & elastic organisers
 - Dual-sided mesh pocket on lid
- **Supplied empty:** End user adds preferred medical gear
- **Origin:** Designed, R&D and final assembly in Riga, Latvia (EU-grade QC)
- **Size:** 21x16x10 cm

Other Useful Information

Key Features at a Glance

- IRR-treated Cordura® shell resists abrasion, weather and night-vision detection.
- Tear-off design enables one-handed deployment while secondary buckle prevents accidental loss.
- Elastic & mesh organisers support logical, rapid access to trauma items.
- Purchase *empty* or choose pre-packed variants (see other listings).

Glossary

- **IRR:** Infra-Red Reduction coating that minimises reflection under night-vision devices.
- **Cordura®:** High-tenacity nylon fabric famed for durability and water resistance.
- **MOLLE:** Modular webbing grid for attaching compatible pouches and gear.
- **Tear-off Pouch:** Pouch mounted on a loop & hook or similar plate that can be ripped free for use.
