Description

SUUNTO A-10 Compass for Hikers and Scouts

The **Suunto A-10** is a robust, easy-to-use compact compass ideal for general recreational navigation, hikers, and scouts. Built on a minimalistic baseplate design, it balances fast, simple, and accurate map reading with convenience features like imperial (*inches, miles*) and metric (*centimeters, kilometers*) scales.

Main Features

- **Balanced for the Northern Hemisphere:** The Earth's magnetic field varies around the globe, so this compass is optimized to reduce needle tilt and ensure stable navigation.
- **Stable Operation:** The specialized liquid filling provides consistent damping of the high-grade steel needle over a wide temperature range (prevents sticking).
- **Detachable Snap-Lock Lanyard:** Easily remove it when working with a map; includes a wristlock for secure carrying.
- **Fixed Declination Correction Scale:** Helps adjust for the difference between magnetic north and true north (important for accurate navigation).
- **Imperial & Metric Scales:** Clear red markings stand out on topographic maps for measuring distances quickly and accurately.

ORDER CONFIRMATION

- **Made in Finland:** Each compass is handcrafted with 100% renewable energy, reflecting Suunto's commitment to quality and sustainability.
- **Suunto Limited Lifetime Warranty**

Specifications

- **Dimensions:** 56 x 104 x 10 mm (2.2 x 4.09 x 0.39 inches)
- **Weight:** 30 g (1.06 oz)
- **Bezel Material:** Plastic
- **Water Resistance:** Insensitive to water pressure (no depth rating needed)
- **Battery Type:** No battery required
- **NSN:** 6605-20-003-4094, 6605-66-155-3798 (NATO Stock Numbers)

Compass Details

- **Direction Scale:** Degrees
- **Accuracy:** $\pm 2.5^\circ$
- **Resolution:** 2° increments for precise readings
- **Jewel Bearing:** Provides low-friction pivot for the needle (ensuring smooth movement)
- **Operating & Storage Temperature:** -30°C to $+60^\circ\text{C}$ (-22°F to $+140^\circ\text{F}$)
