Description

Suunto AIM-30 NH Compass

The **Suunto AIM-30 NH** is designed for fast, competitive orienteering. Developed with sprint orienteering world champion Mårten Boström, it combines an exceptionally stable needle and ergonomic features for quick map-to-needle alignment, allowing you to switch smoothly between different orienteering methods.

Main Features

- **Exceptionally Fast & Stable Needle:** Uses *dual bearing with sapphire* and neodymium magnets for precision in demanding conditions.
- **Versatile Orienteering Methods:** Traditional *turnable capsule* plus *AIM sectors* for quick direction checks.
- **Visually Optimized Needle Alignment:** The needle's design aids in rapid alignment with map meridians.
- **Balanced for the Northern Hemisphere:** Ensures stability when used north of the equator.
