Description

Suunto Vertical Adventure Watch – Stainless Steel

The **Suunto Vertical** is a powerful outdoor watch designed for adventurers who need uncompromising accuracy and reliability. With *offline topographic maps*, *dual-band GPS/GNSS*, and an exceptionally long battery life (up to 60 days in daily mode for this stainless steel variant), it's the ideal companion for conquering the highest peaks or braving the deepest valleys.

Main Features

- **Offline Topographic Maps:** Instantly see contour lines, water features, and paths, even without a network connection.
- **Dual-Band GPS/GNSS:** Leverages multiple satellite systems (*GPS, GLONASS, GALILEO, QZSS, BEIDOU*) across two frequencies for superior accuracy, especially in challenging environments (e.g., canyons, dense forests).
- **Extra-Long Battery Life:** Lasts up to 60 hours of exercise tracking in the most accurate GNSS mode; up to 60 days in daily mode without frequent charging.
- **95+ Sport Modes:** Covers running, cycling, swimming, cross-country skiing, and more, with advanced training metrics (e.g., HRV-based feedback, *heart rate variability*). Keep track of your performance, recovery, and progress.
- **Route & POI Navigation:** Plan routes with waypoints (*Points of Interest*) and get turn-by-turn guidance. Offline mode ensures navigation remains accessible in remote locations.

ORDER CONFIRMATION

- **Altimeter, Barometer & Compass:** Maintain spatial awareness and receive *storm alarms*, sunrise/sunset alerts, and barometric weather forecasts to stay safe in rapidly changing conditions.
- **Military-Grade Durability:** Tested to withstand harsh outdoor conditions (minus-degree temperatures, high altitudes, and more).
- **Smart Connectivity:** Connects to your smartphone for notifications, music controls, and real-time voice feedback (via Suunto app). Share data with platforms like Strava or TrainingPeaks.

Built for Demanding Adventures

Suunto Vertical combines toughness with everyday training features. Whether you're tracking *altitude acclimation* (enhanced by blood oxygen measurements) or fine-tuning your triathlon performance, this watch provides in-depth insights into your progress.

Suunto App Integration

Plan, analyze, and share your activities with the *Suunto app* – from route planning to performance reviews. Access training stats, connect with online sports communities, and enjoy automatic software updates over the air.

Key Specifications

- **Dimensions:** 49 x 49 x 13.6 mm (1.93 x 1.93 x 0.54 in)
- **Weight:** 86 g (3.03 oz)
- **Bezel Material:** Stainless Steel
- **Glass Material:** Sapphire Crystal (high scratch resistance)
- **Case Material:** Glass Fibre Reinforced Polyamide (durable, lightweight)
- **Strap Material:** Silicone (comfortable and flexible)
- **Water Resistance:** 100 m
- **Battery:** Rechargeable lithium-ion
- **Operating Temperature:** -20° C to +55° C (-5° F to +130° F)
- **Built-in Sensors:** GPS, Barometer, Compass, Wrist-based Heart Rate, Pulse Oximeter
- **Offline Map Storage:** 32GB
- **Smartphone Compatibility:** Common iOS & Android devices (Bluetooth connection)
- **Languages:** Multiple (EN, DE, ES, FR, IT, RU, etc.)

What's in the Box?

- Suunto Vertical (Stainless Steel edition)
- Charging Cable
- Printed User Documentation
