Description

Warm and breathable Long Johns layer for professional and leisure use. Can be used either as a base layer, or an intermediate layer.
Elasticated waist and ankles, normal fit.

Sizing:

Pay attention to read this carefully, it might save your money and nerves. There are few things in Svala's conversion chart you should know. Smaller sizes are larger than you might first think. For example Small size really is more like Medium size. However, moving to larger sizes, the size grows less faster and XL size might already be little tight for a big man. In the case of waist sizes, it might be smart to choose little bigger a size that is advised in conversion chart. Nevertheless, the clothes will not be too big.

Fabrics:

75% Merino wool, 22% polypropylene, 3% polyamide

The knit has a technical two-layer structure with an inner layer of moisture-wicking polypropylene and an outer layer of SuperWash and moth-protected Merino wool. Inherently antibacterial, Merino wool prevents the formation of unpleasant odors. In addition, it naturally has excellent heat storage and moisture transfer properties. Also, Long-fiber Merino wool does not itch like typical wool. All seams are flat sewn, so the product is comfortable to wear and does not press or rub the skin.

Care:

No need to wash before first use.

Wash at 40 °C.

We recommend washing with a wool washing soap or liquid.

Best way to dry a wet wool clothes is lay the garment out on a flat surface, taking care to reshape it as needed.

Wool should never be dried in a tumble dryer!

You can skip the washing if you refresh your clothes by hanging them in outdoors between uses.
